

International Conference: Dynamical Systems, Modeling and Recent Advance Developments in Mathematical Sciences

The Conference is dedicated to celebrating the 90th anniversary of Al-Farabi Kazakh National University

The primary goal of the conference is to foster collaboration and knowledge sharing among researchers in the diverse fields of mathematical science and its applications. The agenda is designed to provide a mathematically enriching and socially stimulating experience, with a special focus on the practical applications of mathematical science. The conference will cover a wide range of interest areas including Algebra(s) and Applications, Differential Equations, Approximation Theory, Calculus of Variations, Coding Theory, Combinatorics, Control Theory, Cryptology, Geometry, Difference and Functional Equations, Discrete Mathematics, Dynamical Systems, Ergodic Theory, Field Theory and Polynomials, Fluid Mechanics and Solid Mechanics, Fourier Analysis, Functional Analysis, Functions of a Complex Variable, Fuzzy Mathematics, Game Theory, Graph Theory, Group Theory and Generalizations, Integral Equations, Matrix Theory, Mathematical Biology, Mathematical Economics and Financial Mathematics, Mathematical Physics, and Math Education.
